Assessor Comments	Here is a line of PTIC Angus cross heifers joined to registered, low birth weight, Talooby Angus bulls. These heifers exhibit good frame for their age, and are very quiet to handle. They are the 2nd and 3rd cross progeny by Angus bulls that descend back to brahman cows. They were purchased out of Queensland, predominantly the Dirranbandi district, as weaners, and have been grown out and joined for the successful purchaser to take forward and calve out. Buyers please note, one heifer with old pink eye scaring, only slight, not detrimental.
