| Assessor Comments   | A smaller run of Angus PTIC females that would suite a smaller producer. Heifers purposely joined or bought joined, to Angus sires to amalgamate into the 'Timor Cattle' heifer operation. Heifers present in store to forward condition, they have been running on native pastures in the hills. Will continue to grow out if given the opportunity into future breeders for years to come. 2 heifers noted with white underbelly. 3 heifer noted with a blue eye not deemed detrimental to future breeders. |
