These heifers, on seeing me at the yards, came over, I closed the outside gate behind them and walked them into the yards. In very basic yards, they walked into the race one by one and stepped onto the platform, weighed and walked out. The heifers were most probably bucket reared, and have retained their calm demeanour.

Handled With	On foot , Vehicles
Assessor Comments	In calf to an Apricot Limousin bull, FDBFM114 Floreat Merlin, these Dairy/Beef cross heifers should become very good vealer rearers. They are well grown and quiet, easy to handle and move, and in most cases are moved by going to a gate and calling them. The bull is also very quiet. One heifer has a blue eye, and another a barely discernible blue smudge , see photos.
