On foot , Vehicles

Assessor Comments

An exceptional line of PTIC Angus heifers ideal for the small producer or to top up numbers just prior to spring calving. These heifers were purchased locally from the Harris Family of Coolamon a highly productive Riverina herd. These heifers show good weight for age and will mature into excellent quality breeders producing quality progeny for many years to come. They are in ideal condition for this stage of the pregnancy and are up to date with all health treatments. The heifers are all joined to the Reiland sire in NLRQ9.(See pedigree attached)
