Assessor Comments	An excellent line of EU PTIC Angus cows from the renowned Ardenside Angus herd. Ardenside have used TeMania genetics for the last 37 years. These young cows present an excellent opportunity to secure a line of proven breeders PTIC to quality Te Mania blood sires to commence calving in August. These cows present in store/forward store condition having recently weaned there first calf, however these cows are backed by years of excellent genetics and will mature into large frame breeders producing high quality progeny for many years to come. The Ardenside cattle are sought by all major feedlots in NSW and are known for their performance. Please note approximately half of these females have scarred or damaged eyes with some vision in most scarred eyes with the opposite eye 100%. (see photos). A small percentage of heifers were noted to have white on or forward of the udder.
