Assessor Comments	Older cows out of the dispersal that have had a calf every year. Cows are on the market due to a change in circumstances. Cows are good frame and would fatten into big cows, calves are fresh but could do with a bit more feed. The cows are putting everything into their calves and will respond quickly to fresh feed. Cows are being fed a bale of hay per day and will be until delivery. 1 calf looked a bit off at assessment and treated with Penicillin LA. This vendor has 2 other lots of cows and heifers in the same sale.
