| Assessor Comments | Middle aged cows in their prime. Genuine herd dispersal. Good framed cows that have had a calf every year their calves have often top local weaner sales with their calves always showing good weight for age and preform well in feedlots and for backgrounders. Cows are on the market due to a change in circumstances. Calves are fresh and will grow into good feeders or given the opportunity will make vealers. The cows are putting everything into their calves and will respond quickly to fresh feed. Cows are being fed a bale of hay per day and will be until delivery. This vendor has 2 other lots of cows and heifers in the same sale. All the work has been done and ready to go. 1 cow noted with long toe and a calf had a swollen knee will assess at delivery. Buyers please buy with confidence these are a genuine article and a good breeding herd. |
