	Cattle worked well in very basic set of yards. Makeshift force yard made it challenging to get cows down the race which led to a few of them becoming agitated. Cows are easy to handle for anyone with a bit of stock sense.					
Handled With	Bikes , Vehicles					
Assessor Comments	**Genuine dispersal sale** Outstanding opportunity to secure up to 90 PTIC Reiland Angus 5-year-old cows, to be sold in deck lots (5x18). These are classed in breeders, only being sold due to giving up a lease block. These cows have passed the fertility test, being identified as calving in the first month of the joining period, beginning in early August, with the later calving cows removed. Cows are predominantly large to very large frame cows in prime condition, with the mob averaging 721kg (560-964kg). Reiland Angus genetics have been used for the last 20 years with a relentless focus on calving ease & fertility leading to more calves on the ground with minimal assistance. All cows have sound feet & udders and have many more productive years in front of them. Please note; in the line of 90; one cow with white underline, 5 or 6 with small amount of white on udder and 4 or 5 with old eye scar. Please call with any questions, also please read vendor comments.
