	Overall the cattle handled very well. Only a couple of Heifers became slightly unsettled in the crush on weigh scales, once let out they settled great.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	Ross & Jenny Walsh offer a quality line of 1st calving Angus heifers, Alpine and Lawson Angus blood with Angus calves at foot. These heifers are milking up well for their first calf and doing an outstanding job on their calves (Avg 228kg). A great opportunity to purchase an even, well bred line of young breeders with calves that have shape and softness. These heifers are very quiet to handle. Only being offered due to not fitting into the vendors calving program. The Lawson's Angus bull has been back in from 26th April and will remain until delivery, I would recommend the purchaser consider joining for an additional cycle after delivery to round out the joining. One heifer noted with small blue scaring on eye and 2 with white on udder. ** Vendor willing to transport to NVLX saleyards or within 100km of Tallangatta free of charge **
