	Quiet cows easy to work with with only a few cows showing some stubbornness to move through crush however were no means aggressive. After exiting the crush the cows slowly moved off and stood quietly for photos to be taken.		
Handled With	On foot , Vehicles		
Assessor Comments	Fantastic pen of mature Angus cows that have been great proven mothers over the years. Cows have been preg tested in calf to a Riga Angus bull and are due to start calving mid August. With great genetics and weight these cows will not disappoint given the right opportunity's. These cows are perfect to add to an existing herd or to start a herd of your own with less stress on calving given their age. Note two cows with a flick of white on udder and two cows showing small cloudy spot on eye not considered detrimental.
