	Slightly Stirry: 6 head	Slightly Stirry: 6 head	
	Stirry: 1 head	Stirry: 1 head	

Handled With Very quiet cattle to handle and work through yards
 Bikes , Dogs , Horses , Vehicles

Assessor Comments	These heifers are part of the complete flock dispersal from Rhoman herd that are only being sold due to property being sold, these heifers have been kept for fertility and were going to be kept as future breeders. History: Since 2014 outlier imported South African genetics were bred over a DDRF foundation cow herd based in the Kimberley until being relocated into the NT 2018. The foundation and aged cows have been drafted off to offer the best of the best. Since 2018/2019 four grey Alf Collins (1) and Jim Lindsay heterozygous polled (3) herd sires were sourced to replace the imported embryo sires. It is the progeny from this blend of genetics that are offered for sale and I sell with confidence as being a hardly, functional and docile herd of Brahman. Almost all of the breeder animals and embryo progeny are registered with the Australian Brahman Breeders Association (ABBA) with tail hair samples in storage for the 2018 heifers. Age composition are one embryo dam born 16/08/2011		
Assessor	Jack Maloney (Level 2 Accredited) Parallel Assessed By : Scott Witham
