Assessor Comments	A run of Angus PTIC females purposely joined to Angus sires including Eaglehawk and Hazeldean bulls to amalgamate into the 'Timor Cattle heifer operation. Heifers present in store condition, they have been running on native pastures in the hills and present with a winter coat. Heifers will continue to grow out if given the opportunity into future breeders. A great opportunity to secure young breeders in time for the prosperous Spring ahead. 4 heifers noted with white underbelly. 6 heifers noted with a blue eye not deemed detrimental to future breeders.
