Assessor Comments	Rennylea bloodlines joined to Boomoolooka LBW, high indexed registered bulls, 2 x Pestivirus vaccinations. These heifers are in forward condition with proven genetics and would be a brilliant proposition for a producer looking to rebuild their herd with some renowned bloodlines. NB One heifer has a blue eye with scarring which has been treated and has healed, please see photo. Also at the time of assessment some early signs of ringworm was evident, so the the mob was treated with Cattle Guard Pour On.
