| Assessor Comments     | Heifers doing a very good job on their calves and all milking very well. 4 heifers without calves at foot are due to calve in next couple months. Heifers were purchased from Wagga sale yards in store condition out of South Australia and have done very well since arriving. All calves are thriving and doing very well. One calf was noticed to have a blue eye upon assessment and one cow was noticed to have a cloudy eye upon assessment. Heifers that have calved have calved unassisted. |                                                                          |                         |     |                                     |      |              |     |
