Assessor Comments	A quality line of PTIC Angus Heifers. From a larger group of heifers, these females are offered for sale as they do not suit the vendors husbandry calendar. Joined for 45 days, the scanner identified them as being predominantly 5-6 weeks in calf at scanning. The heifers were joined to a Kenny's Creek Bull. Heifers show great temperament, bone and femininity. The vendor will offer an additional 5 PTIC (4 year old) cows in today's cattle sale.
