Assessor Comments	A quality line of 4 year old PTIC Angus Cows. From a larger group of breeders, these females are offered for sale as they do not suit the vendors husbandry calendar. Joined for 45 days, the scanner identified them as being predominantly 5-6 weeks in calf at scanning. The cows have been joined to a Kenny's Creek Bull. The cows show great temperament, bone and femininity. Note 1 cow has white on her udder. The vendor will offer an additional 7 PTIC heifers in todays cattle sale.
