|                    | Very kind, sensible females to handle throughout assessment. Led up the race quietly to be assessed and weighed, stood calmly and exited at a walk, some not walking more than a few steps before stopping again. Very quiet females to deal with. Let out into large yards for photos and videos, and even with more space to move, they were happy to stand and relax. Very easy females to handle.                                                                                                                                                                                                                                                                                                            |                                          |                                        |

| Assessor Comments  | Very nice line of quiet, easy, proven breeders to take on. Vendor focuses on producing a moderately framed productive breeder, and these are just that. Genuine females that were part of the keeper draft, only slipping out of the system this year as scanning up in the later part of the join and vendor wanting to maintain a tight calving. Ideal females to take on and add to an existing operation, or quiet enough for a hobby farmer or smaller scale operation to take on and enjoy, without having the worry of a first calver. Note. 2 females presented with an old blue eye scar. Some Heifers exhibited some rub marks. Not deemed detrimental. Please see photos & video for full contentment |                                          |                                        |
