Assessor Comments	Speckle park cross cows and calves, cows have been continuously running with the black limousin bull until 7/7/21. There is also 2 cows with younger calves that were not assessed - purchaser can take at the sale price. Approx 50 of these Cows were purchased ex Dubbo 2019 and culled to leave this line being offered as the feed has run out on the property they are located. Cows are proven breeders doing an outstanding job on their calves. Cows present in forward store condition, cows did seem to get agitated when confined to smaller pens and the crush to be mouthed but once out in holding paddock back with their calves settled well and were easy to photograph. All 16 cows were mouthed at assessment and all showed full mouth with no teeth missing, the exact age of the cows is unknown as they were purchased in 2019 as young cows with no exact age provided.
