Assessor Comments	A nice line of future vealer mothers to take on, right up on the job with not long to wait until they commence calving. Quiet and easy to handle in the yards and paddock. A perfect line of females to take on and add to an existing herd or take advantage of the buoyant cow job & replace some older breeders with these fresh young females. Please see photos & video for full contentment. Note. Vendor has another lot of these sisters in same sale.
