Assessor Comments	A nice line of 6-8YO Angus cows with Charolais calves at foot. Three of these cows were purchased in Autumn of last year with a calf at foot out of the Western District and North East regions, the remaining three were vendor bred using high performing Rennyalea genetics. These cows have had all of the treatments and present in a terrific healthy condition and the calves have been marked and had two 7IN1's. These cows have had the opportunity to a Lawsons Angus bull for a four week period but have not been pregnancy tested. These cows would usually be retained and are only being sold as the feed is running out and something needs to go.
