	Cattle were very quiet in paddock and came up to vehicle when driving around them. There was the odd cow that stood off when approached but all in all a typical run of handled pastoral cows.							
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles							
Assessor Comments	These are a run of Cows and Calves purchased by the vendor with the intention of keeping and joining and are only being sold to make space for young stock. The cattle are on the bounce and represent good value with the calves looking around the 165kg ave mark (approx 80kg to 220kg spread) and in the main weanable size. To the best of the vendors knowledge there hasn't been any access to bulls and are ready to join to the bulls of your choice. Please make note of delivery period as vendor works away. Please note Braford steer in video isn't part of this consignment.
