	Heifers very good to handle in paddock. These Heifers handled well in the yards, some became a little claustrophobic in the drafting yard and pound which increased their speed. At no time were any of them aggressive.							
Handled With	Bikes , Dogs , Horses , On foot							
Assessor Comments	A good line of EU heifers, with a feature being the number of polled heifers. Born and raised on relatively hard country, they will go on to do well anywhere. In calf to predominantly Angus bulls the progeny of these heifers will be a valuable commodity. Four heifers have slight fly bite on their necks.
