Assessor Comments	Here is a line of Genuine young breeders PTIC to Santa & Droughtmaster bulls. These young cows have plenty of life left in them and possess an impeccable temperament. 6 cows PTIC Blue Tag, 47 cows PTIC Red Tag and 2 cows with calves at foot. This is a very neat line of PTIC young cows possessing plenty of length and stand up, ideal replacement breeder cattle with plenty of quality and a beautiful temperment. Cows have been running with two Bullamakinka Santa bulls and 1 Clonlara Droughtmaster bull. Vet believes Cows to average 5-6 months in calf across the two lots. please note genuine breeders only for sale due to a change in direction with the vendors operation. Note same vendor also has another deck lot of PTIC cows in the same sale and also the two Santa Sires.
