Outstanding cattle to handle in the yards! The very odd cow showed signs of nervousness whilst in the crush. These cattle are strip grazed & have human interaction daily in the paddock!!

Assessor Comments

A magnificent draft of 3rd calving cows from an outstanding Angus herd! Pardoo Cattle Company run a stringent culling program, which sees only the top females retained within the herd! Due to extremely wet conditions, they have decided to offer a run out the gate of four age groups of females which would usually be retained. These young cows have been joined to Team Te Mania Sires; N366, N819, N12, N1463, N1366, N890 & N162. from 15/12/20 for 7 weeks. Bulls are selected with key traits in mind such as IMF, moderate mature cow weight, calving ease & temperament. They present in forward/prime condition & would suit the most discerning purchaser! This is a rare opportunity to secure classed breeders that have been bred to perform. They come with my highest recommendation!!! ** Vendor has a total of 112 joined females in this sale**
