Temperament Yards Crush Paddock

	Quiet: 20 head	Quiet: 17 head Slightly Stirry: 3 head	Temperament not assessed in Paddock
Handled With	Outstanding cattle to handle in the yards! The very odd heifer showed signs of nervousness whilst in the crush. These cattle are strip grazed & have human interaction daily in the paddock!! Bikes , Dogs		
Assessor Comments	A magnificent draft of PTIC heifers from an outstanding Angus herd! Pardoo Cattle Company run a stringent culling program, which sees only the top females retained within the herd! Due to extremely wet conditions, they have decided to offer a run out the gate of four age groups of females which would usually be retained. These heifers have been joined to Team Te Mania Sires; N54, N58, N836, N835 & N1120 from 15/12/20 for 7 weeks. Bulls are selected with key traits in mind such as IMF, moderate mature cow weight, calving ease & temperament. They present in forward/prime condition & would suit the most discerning purchaser! This is a rare opportunity to secure classed breeders that have been bred to perform. They come with my highest recommendation!!! ** Vendor has a total of 112 joined females in this sale** ** 3 heifers observed with some white on the udder**
