Outstanding cattle to handle in the yards! The very odd heifer showed signs of nervousness whilst in the crush. These cattle are strip grazed & have human interaction daily in the paddock!!

Assessor Comments

A magnificent draft of joined 1st & 2nd calvers from an outstanding Angus herd! Pardoo Cattle Company run a stringent culling program, which sees only the top females retained within the herd! They were PTE on 20/4/21 but given a second chance joining with the intent of selling them as PTIC autumn calvers, however a wet season means they must be offered prior to pregnancy testing. In the past they have had great success with approx 90% conception rate. These young females have been joined to Team Te Mania Sires; N18 & N834 from 1/6/21 for 8 weeks. Bulls are selected with key traits in mind such as IMF, moderate mature cow weight, calving ease & temperament. They present in forward/prime condition & would suit the most discerning purchaser! This is a rare opportunity to secure classed breeders that have been bred to perform. They come with my highest recommendation!!!! ** Vendor has a total of 112 joined females in this sale**
