	Quiet: 36 head Slightly Stirry: 2 head	Quiet: 34 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
	Heifers all yarded easily and were very easy to deal with. Only 4 head got slightly agitated once put into crush, but the rest generally stood in a calm manner.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	An excellent opportunity to purchase a good line of EU Accredited PTIC Heifers. These heifers would usually be retained and join the vendors breeding program but due to the wet conditions the decision has been made to move them on. The Vendor has purchased top bulls from leading studs for numerous years, Basing the herd on "Te Mania" Bloodlines and in more recent years "Hazeldean". Typically the "Boonoonar" cattle grow into strong moderate framed cows. The heifers have been joined to Te Mania M109 & M155 and Hazeldean Q555, which have been selected for their ease of calving attributes. The opportunity to purchase a line of EU PTIC Heifers that are Joined for a tight 6 week Calving period is definitely one not to be missed.
