	Slightly Stirry: 2 head	Slightly Stirry: 3 head		Paddock
	very easy handling cattle cattle that were correctly weaned in the yards prior to arriving.			
Handled With	Dogs , Vehicles			
Assessor Comments	A nice line of 13 EU Angus heifers 401kg at assessment PTIC 5-8 weeks to Angus bulls . Quality bred heifers that present in good strong forward condition, ideal for PTIC heifers. These heifers are genuine SouthEast SA bred from Newry Station at Kingston and went through a yard weaning program in 2020. They have been joined to Angus sires and vets comments were they are 5-8 weeks in calf. These future breeders present as good solid types with good bone and muscle and would be ideal for introduction into any cattle breeders herd. They are PCAS eligible, LPA and Never Ever eligible. Please note- a few heifers with some warts around eyes and 2 older heifers in lot.
