	Heifers are quite and handle well through the yards and crush. Heifers are handled regularly through the yards paddocks.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	This line of young breeders are only on the market due to the vendor moving out of the area. Thses heifers were purchased from the surrounding area and Kangaroo Island as replacement breeders. Heifers show good bone on a reasonable frame for there age and will continue to grow into good medium to large frame cows. Heifers are genuine breeders all they need is a bit of sun on their backs and will be perfect artical if looking for long term breeders with their hole life in front of them. Heifers have been running back with Pathfinder blood bull for the last 10 weeks and will remain in until delivery. These girls run solely on pasture with a variety of lick available to them but no hay, with the feed coming to them now would expect them to improve quickly. Vendor has a small line of older cows in the same sale. 2 calves in the mob are about 4.5 months old as heifers calved early then expected.		
Assessor	Clint Endersby (Level 2 Accredited) Parallel Assessed By : Gregg Nash, Matt Schulz
