Assessor Comments

12 Angus, Angus Red Angus x cows PTIC to Red Angus Bull, weighing 528 to 774kg at assessment 2 weeks after having last years calf weaned off them. Great herd starter from proven cows or nice little herd builder to help increase this years calving number. They are more traditional in style being a good moderate frame with one cow being of a large frame. *A photo of the recently weaned calves has been added for reference. *one cow has a larger abdomen than normal she has been like this since her first calf and has reared a further 6 calves with out issue.
