Assessor Comments	A sound run of SIL pooginook blood merino ewes. These ewes present in a healthy condition scanning 134% in lamb to Bedgerabong boarder Leicester rams. A good opportunity to lamb out these ewes and sell the progeny into a robust and increasing lamb market. Accompanied by a strong mutton market, there is still a dollar to be made here. Buyers please be aware, within this mob there is: - One ewe observed with small patch of dermo - Two ewes with turned/missing eye - One ewe with old cyst on head - Six ewes with long toes, not observed to be lame - One ewe with Stjohns Wart scarring - One wooly ewe - Four ewes with faulty udders Typical of ewes of this age.
