Preg Scanned?	Yes, this lot was pregnancy scanned, by Ross McNaughton (Non-Vet Contractor on 20/06/2021). 100 % Scanned in Lamb, from 3 to 4 months (at time of assessment).		
Assessor Comments	2-4 year old Merino ewes, Scanned in lamb to White Suffolk's, December shorn, & OJD Vaccinated. These Vendor bred Merino ewes represent a great opportunity to top up on breeding numbers, with a tight lambing to a terminal lamb in late spring. All 2017 & 2018 drop ewes have raised a lamb in previous years, with this being the first joining for the 2019 drop ewes. Ewes are sired by Mumblebone rams selected on positive fat, and eye muscle. With the White Suffolk rams selected on muscle and early growth. Scanned as 100% ewes in lamb, as they were only scanned for wet and dry.
