Assessor Comments	Flock dispersal of good framed easy care mixed age merino ewes. Scanned undetectable as dry ewes in the mob. These ewes are generally 19 micron wool production sheep. They have been run a bit tight due to the cropping program, good ewes to fatten shear off later in the year and join to a ram of your choice. All Mernowie bloodlines closed flock sheep. See SIL ewes in this same sale out of this mob. Any questions please call Greg Beaton
