Temperament Yards Crush Paddock

	Quiet: 95 head Slightly Stirry: 7 head Like most young cattle they do require to be steadied through gateways, not unusual. There was a small percentage of steers that were a bit nervous in the crush whilst being weighed.	Quiet: 90 head Slightly Stirry: 12 head	Temperament not assessed in Paddock
Handled With	Dogs , Horses , Vehicles		
Assessor Comments	A VGQ line of Droughtmaster & Droughtmaster/Shorthorn cross weaned steers, that would be ideal to background on grass or oats for a feeder or bullock job. These steers have been yard weaned and tailed out with horses & dogs so they are ready to go straight to the paddock. Please note 1 steer noticed to have rub marks around its head. Vendor also has 48 Angus x steers in the same sale.
