	Typical of calves that have been bottle fed they are very quiet. They were a pleasure to handle through the yards and crush and walked out nicely.					
Handled With	Bikes , On foot					
Assessor Comments	Buyers on offer are a great line of weaned and well educated steers ready to power ahead. A great line of Dairy steers which were bottle fed and weaned onto calf pellets. The steers display good growth and frame. They would be ideal cattle to grow out to bullocks or would make good heavy feeders on Oates. Buyers make not one steer had a small amount of rub marks on his near side back legs but is of no detriment. A great opportunity to purchase cattle with plenty of frame ready to power ahead.
