Assessor Comments	A nice line on one mark vendor bred Angus steers. Steers are from a well performed herd with steers previously been sold into top end feeder market & Grass fed markets. Steers are grass fed and Antibiotic free. Steers are sired by bulls that are

selected for growth and IMF. Steers are true to type and show very good growth for age and sound confirmation. Given the right nutrition these steers will continue to grown into either domestic or export feeders or alternatively fattened. These steers have recently been running on winter pastures and are starting to respond well with noticeable weight gains.
