Assessor Comments	A nice little line of Angus X steers & heifers, these cattle were early weaned onto a 14% protein Riverina pellet. They were purchased as calves on cows. Steers & heifers are good to handle and weigh between 200kg & 365kg at assessment. They are of a good type, have grown well with the added protein & would suit backgrounding. * Vendor has 2 other small lots in the sale*
