Assessor Comments	EU Angus heifers that are suitable to join to the bull of your choice to meet any number of high end markets. These females are from a herd with a strong reputation for fertility, growth & carcass as well as performance either on grass or in feedlots. During the assessment heifers received an Inverlab Pour-On treatment for lice control, some also were observed with some ringworm scarring around their eyes & nose (please refer to photos), a small percentage with white udders.
