Assessor Comments	EU, F1 yearlings, that have been bred using Door Key Wagyu Sires over quality vendor bred Angus heifers. These steers & heifers have good frame & growth for age & have been gaining at over 1kg per day for the last fortnight with some favourable weather. They have received their first Bovilis MH + IBR shot & would be suitable to go straight on to "feed". Please note vendor is willing to preg test heifers prior to delivery to guarantee an "empty" status. A small number showed signs of rubbing, they received a lice treatment 14 days prior.
