Vendor Comments	Autumn drop lambs with 30head of smaller and cull types removed from mob prior to assessment. Have returned to light growth of winter herbage which benefiting these lambs.

Quality Grades	
Good	100%

Assessor Comments	173 March/April drop whether lambs 33kg average weight, have had two vaccines. Mainly black heads with a noticeable few white lambs. Vendor has not docked tails off. Lambs were weaned early and have lost the normal lamb bloom. Good quality Amarula rams were used and vendor has noted these wether lambs will make quality slaughter lambs, suitable to further grow out and condition as trade lambs or hold onto and condition as heavy stock. Tail end were removed before assessment. Given quality feed these wether lambs will grow quickly and display good quality breed characteristics. Previous drop of wether lambs same as these grew out and fattened to make good quality slaughter stock.
