Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	Quality line of mixed sex suckers that are growing out well and will continue to do well into the upcoming spring. These lambs have had a great start being lambed onto oat crop and been grazing on oat crops since moving to grazing wheat two weeks ago. Suckers have been drenched and will continue good weight gains given the opportunity, and can provide a chance for a reasonably quick turnover for the trade job or will grow out to export weights given the chance. All lambs are in a tight weight range of 30-38kg at assessment. Lambs are out of large frame Towalba & Pooginook Merino's. ***Please note, heavy dag will be cleaned before delivery. 1 black lamb can be removed if buyer wishes***
