Assessor Comments	400 GQ Young Karbullah Blood Merino Ewes. 98% of these are Vendor Bred Ewes 2 weeks off the Board. They are strong, healthy Ewes that would power ahead if given access to good quality feed. Vendor's are part of the SRS Merino Group & have classed these Ewes out of their Flock to present for sale. Their Flock is classed for Fat, Eye Muscle & Wool Production. There are approx 100 Ewes that were only classed out due to age, as they were late, out of season Lambs. They were Vaccinated with Nilverm Low Volume & 5 in 1 at shearing so are up to date for the prospective purchaser. These Ewes cut 80mm of 17.6 Micron Wool for the past 9 months. There are 10 purchased in Ewes that are based on Karbullah Bloodlines & 10 Ewes from a slightly earlier shearing included in this mob. There was the odd Ewe observed with small shearing cuts that have all but healed. Vendor has another Lot of 100 Older, Station Mated Ewes in the same sale.
