Assessor Comments	This mob of 219 April shorn merino ewes presents in good forward store condition. Consisting of 190 black tags, 5yrs, and 29 white tags, 4yrs, these ewes were purchased as scanned empty ewes off auctions plus in April and joined to the Ridgehaven Poll Dorset rams on the 17th of April for 7 weeks. 136 ewes scanned multiple, 83 scanned as singles. A percentage of ewes present very forward in there pregnancy indicating they may have been in lamb when purchased this being the case a percentage of ewes will have a merino lamb. Buyers should take into account some heavily pregnant ewes when transporting. This mob of ewes have been on grazing crop and with the continued wet conditions some of the ewes are slightly lame with foot scald. With a very good season on the doorstep this mob of ewes would be an attractive trade or retain to rejoin
