| Preg Scanned? | Yes, this lot was pregnancy scanned, by Blake Ireland (Non-Vet Contractor on 06/08/2021).<br>100 % Scanned in Lamb, from 2 to 3 months (at time of assessment). 6 % Multiples 94% Singles (of Ewes in Lamb) |
| Other Joining Details | The scanner noted that it was difficult to tell with some ewes if they were multiples instead of singles, but he marked as singles to be safe. |
| Assessor Comments | Good line of Scanned in lamb medium to large frame 1st x ewes that are ideal to lamb down in the spring and get a quick return. Theses ewes were purchased out of Wagga saleyards as a line of scanned empty breeders ewes from Burgess Rural at Henty. Ewes range in tag age from 3 to 8 yrs, please see age break up. The scanner commented that there could be more multiples, as it was difficult to see more than the one foetus, so he marked as singles to be safe. |
