	The weaners worked well through the yards considering they are unweaned, with some eager to return to the mob if isolated. Generally a quiet mob of heifers to handle.

Assessor Comments	Offering 58 crossbred weaner heifers. The heifers were 196.4kg live at assessment and are in good order. These heifers are a mixture of vendor bred and purchased weaners that will stay on the cows until delivery. The heifers are all branded No.1 and are 4 - 7 months of age. Don't miss this opportunity to purchase young light weight heifers that will grow out for the feeder trade or keep as replacement breeders. Please note 1 heifer was sighted with light blight scarring on one eye. Also please note the brothers of these heifers are in the same sale and would make a neat 3 decks. There is also another mob of cows and calves from the same vendor.
