	One of the quietest and well handled mobs of cattle I have assessed this year. Odd steer got agitated during mouthing but once back with the mob he was fine.

Assessor Comments	2 decks of 56 Brahman X Feeder Steers. Vendor Bred by Droughtmaster & Charolais Bulls out of Brahman X Cows. Weighed into a 117kg weight line and approximately 16 Brahman Typed Steers, with only 4 being true Humped Brahms. These steers have been running in a single electric wire cell rotation, grazing system being moved every 2-4 days. Absolute pleasure to handle through the yards. The work has been done, they are ready for an oats crop, good pasture paddock or the feedlot. Steers do show signs of rubbing but of those inspected no parasites were observed.
