Vendor Bred	Yes
Stock History	Bred out of Droughtmaster, Santa and Simmental cows and all of their crosses. All by the same bulls.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Simmental bulls accessed from Billa Park, Santa bulls from Moongana and the Droughtmaster bulls were purchased from the Central Reds sale in Clermont.
Grazing Conditions	Currently running on an oats crop for the past 5 weeks. Prior to that they were running on Buffel grass with a nice green shoot in it. Also have access to Buffel as well as the oats. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Paramectin RV

Health Treatments: Drenched 17/08/2021 Paramectin RV

	Vaccinated	17/08/2021	Cydectin Injection
	Vaccinated	03/03/2020	7 in 1 (weaning)

Eligibilities: Russian Eligible Saudi Eligible

J-BAS Score: 6

Vendor Comments: Normal annual turnoff. Feedback has been encouraging as to their feedlot performance to date.

Temperament

Yards	Crush	Paddock
Quiet: 95 head Slightly Stirry: 15 head	Quiet: 90 head Slightly Stirry: 15 head Stirry: 5 head	Temperament not assessed in Paddock

Steers were generally pretty good to handle in all areas of the yards. There were a few ring leaders that tended to trot around a bit when being videoed and photographed, definitely nothing stirry though. In the crush there were a few that did get stirred up but most of this was due to being caught in the head bale while being mouthed and injected. They settled once they were let out of the crush when they reached the mob.

Handled With: Bikes

Assessor Comments: Steers that show great length, muscling, softness and weight for age. A sample of these were mouthed with 22% that have either cut their two teeth or are just cutting. They will certainly suit all export feedlots for 100 day programs and look to be just hitting their straps now they are on the oats crop. They are very clear in the eyes and nasal area and look to be very healthy. Most are flatback types however the there are a few straighter Droughtmaster types in the line and some of these do have a slight hump, visible in the photos and videos. These are expected to load onto a 4.5 deck unit comfortably and be aware there is a further 2 deck lot of lighter steers as well in the sale. There wasn't any tick visible at assessment and they have been pre-treated in an effort for them to clear but no guarantees can ever be given with ticks.

Assessor: **Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366

Delivery Period: 26/08/2021 to 26/08/2021 (1 day)

Delivery Point: "Holbourne" yards located approx. 45kms N/W of Springsure.
