Comment on Fat Score 1 Cattle: Only a couple of score 1 steers that aren't laying much fat and they are certainly fit for all travel.

| | |
|---|---|
| Vendor Bred | Yes |
| Stock History | Bred out of Droughtmaster, Santa and Simmental cows and all of their crosses. All by the same bulls. |
| Lifetime Traceable | 100% of cattle in this lot are Lifetime Traceable |
| Bloodlines | Simmental bulls accessed from Billa Park, Santa bulls from Moongana and the Droughtmaster bulls were purchased from the Central Reds sale in Clermont. |
| Grazing Conditions | Currently running on an oats crop for the past 5 weeks. Prior to that they were running on Buffel grass with a nice green shoot in it. Also have access to Buffel as well as the oats.<br>Returned same |
| Burr/Seed in Coat | No Burr or Seed of weeds declared noxious observed in the coats at assessment |
| HGP Status | The owner declares that the cattle have not been treated with HGP at any period of their lives |
| WHP/ESI | Cattle are within a Withholding Period or Export Slaughter Interval for: Paramectin RV |

|---|---|
| Vendor Comments | Normal annual turnoff. Feedback has been encouraging as to their feedlot performance to date. |

| Temperament | Yards | Crush | Paddock |
|---|---|---|---|
| | Quiet: 53 head<br>Slightly Stirry: 7 head | Quiet: 50 head<br>Slightly Stirry: 8 head<br>Stirry: 2 head | Temperament not assessed in Paddock |

Steers were generally pretty good to handle in all areas of the yards. There were a few ring leaders that tended to trot around a bit when being videoed and photographed, definitely nothing stirry though. In the crush there were a few that did get stirred up but most of this was due to being caught in the head bale while being mouthed and injected. They settled once they were let out of the crush when they reached the mob.

| Handled With | Bikes |
| Assessor Comments | Steers that show great length, muscling, softness and weight for age. A sample of these were mouthed with only two that have either cut their two teeth or are just cutting. They will certainly suit domestic feedlots and look to be just hitting their straps now they are on the oats crop. They would also suit to background further to export feedlot entry weights later in the year. They are very clear in the eyes and nasal area and look to be very healthy. These are all flatback types. These are expected will load onto a 2 deck unit comfortably and be aware there is a further 4.5 deck lot of heavier steers as well in the sale. There wasn't any tick visible at assessment and they have been pre-treated in an effort for them to clear but no guarantees can ever be given with ticks. |
| Assessor | **Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366 |
| Delivery Period | 26/08/2021 to 26/08/2021 (1 day) |
| Delivery Point | "Holbourne" yards located approx. 45kms N/W of Springsure. |
| Agent Contact | **Andrew Scott**<br>Mobile 0428 824 824<br>Work 0428 824 824<br>Fax (07) 4922 2218<br>Email andrew.scott@elders.com.au |
| Trucking Access | Any configurations up to a 4.5 deck unit. No all weather road access. |
| Delivery Comments | Please note Thursday 26th is 9 days post assessment and pre-treatment and will give the best result of the chemical treatment for clearing cattle to tick free areas. |
| Trading Terms | Intending buyers be advised Elders terms are strictly CBD unless debt can be accepted by a nominated agency or an approved Elders account is in place. |
| Movement Restrict. | Steers in a tick area. These have been pre-treated with both a backliner and an injectable in preparation for movement to all tick free areas. Purchaser to pay all further clearing costs. [Please note: It is the responsibility of the Purchaser to satisfy all state compliances in regard to the movement of this lot.] |
| Special Conditions | Buyer to advise all delivery instructions post sale including details required for the NVD. |
| Sale Types | $/Head |
