Temperament	Yards	Crush	Paddock
	Quiet: 80 head	Quiet: 75 head Slightly Stirry: 5 head	Temperament not assessed in Paddock
	These heifers handled very well in the yards, a small number did become agitated in the crush during mouthing which is to be expected.		
Handled With	Vehicles		
Assessor Comments	A double deck line of yearling heifers that present in store condition (you are definitely not buying condition here) and look like they would respond pretty quickly on an oats crop or improved pastures. These would suit a restocker and be ideal to background and take to heavier domestic feedlot entry weights. All were mouthed to be solid milk toothers. Noted about 4 heifers with only very light warts on the head and a further heifer with slightly larger wart near her eye, I don't expect any issues here though. Buyers please note there are other lots being offered in this sale that are in the near vicinity and can be used to top up loads. A feature of these heifers was their temperament, they moved very easily through the yards and are easy to handle in the crush/race/pound.
