Assessor Comments: On offer is a good line of brangus heifers, these heifers present in foward store condition with the winter behind them, these heifers were weaned at the start of the year and all the hard work has been done, these heifers are starting to power ahead in the recent months and compensatory gains are expected in the coming warmer months, these heifers would ideally suit to be grown out to heavy feeder with the odd heifer being able to suit trade markets, these heifers are of good enough quality to also breed with, these heifers would ideally suit oats
